'The Evening World's " Suggestion, About It May Be Acted Upon.

The Need of Such a Committee Is Very Apparent.

No Likelihood of the Route of the Parade Being Changed.

The suggestion made by THE EVENING WORLD of yesterday that the Centennial Committee had overlooked an important matter in connection with the Celebration in neglecting to appoint a Committee on Public Comfort to direct strangers in the city where they might secure board and lodginge, has already borne fruit. One of the committeemen said this morning to

a reporter of THE EVENING WORLD: The idea is an excellent one, and the Execntive Committee will have put it into speedy execution. In fact they are considering the matter now, and steps will probably be taken early next week to get the bureau into active

working order.

*Something of the kind must be done, and the Committee at first thought the Hotel-Keepers' Association would look after the matter. They have refused, however, to undertake it, and now it naturally falls upon us."

"It is rather hard." said another member at the Committee's headquarters this morning.

"to put any more work on our shoulders, for we have about all that we can attend to now. But I suppose it must be done."

The matter will be discussed and decided upon to-day at the meeting of the Committee on Plan and Hoope.

and Scope.

From this time on the chief work of the clerical corps at the Centennial Committe's head-quarters will be the distribution and mailing of invitations and tickets to the guests invited to attend the celebration.

This is no easy task, for, although the Committee has tried hard to keep down the number of complimentaries to the ball and banquet, in order to give bons fide purchasers a chance, the deadhead list numbers about two thousand for the ball and supper and 600 for the banquet.

It was announced by Mr. Bowen some time ago that every member of the Committee of Two Hundred expected to pay \$15 for his tackst to the banquet, and as there are places for only \$00 at this feast the natural inference is that no one outside of the 600 guests and the 200 committeemen will get more than a whiff of the odor of the great chef's choice viands from some distant box or seat in the cock-loft, while Mr. McAllister's Geisler and Moetet Chandon importations will be entirely out of the question as palate-ticklers. REEPING : WN THE COMPLIMENTABLES.

portations will be entirely on the Committee have palate-ticklers.

Whether the members of the Committee have yet provided themselves with tickets remains to be seen, but it is said their applications were the first to be placed on file with the late Secretary of the Entertainment Committee, and in that case it is hardly probable that they will get left.

The complete set of tickets to all the various events of the three days' celebration numbers eight, and they are printed in different colors and designs in order that holders may make no mistake and try to work the banquet gatekeeper with an arterbibition ticket, or the grand stand with a pasteboard admitting one to the religious services at St. Paul's.

The colors and designs were originated by the Chairman and Secretary of the Art Committee in collaboration, and are as follows, each bearing a medallion head of Washington in low relief:

Becenting at Equitable Enilding—Old sold.

161:

Reception at Equitable Building—Old gold.

Naval Parade—Dark blue.

Bail—White, with gold medallon,

Baile—White.

Military Parade—Light blue.

Industrial Parade—Blood red.

Art Loan Exhibition—Pink.

Services at St. Pauli—Lavender.

Literary Exercises—White, in circular form.

Literary Exercises—White, in circular form.

The refusal of the Committee to take any action upon the request made by the Legislature to change the line of march so as to pass through Union Square instead of going down Waverley Place to Washington Square, has aroused confiderable dissatisfaction, especially among the Naval Committee.

It has been claimed all along that if the procession should pass through Union Square it would give an opportunity to thousands of people who have no chance of obtaining seats on the grand stands to get a good view of both parades.

OBJECT TO A CHANGE. The Committee, however, say that any change in the line of march now is out of the question, because the grand stand and arch at Waverley place are now creeted and all arrangements have been made to have the procession pass down that way.

have been made to have the procession pass down that way.

The Army Committee say that the rounding of Union Square would be a nuisance, and, besides, that it would be very hard for the troops, and they want to make it as easy as they can for the soldiers, who have at best a tedious day before

A KICK FROM BROOKLYN.

The most recent kick against the hard-pushed Centennial committeemen comes from the Brock-lyn Board of Aldermen, who think that they are deserving of the same courtesies as were shown to the New York City Fathers and the Legisla-

Sure.

They have not even been provided with grand stand tickets, and as they appropriated \$25,000 to provide for Brooklyn's representation in the parade they think they have been very shabbily treated.

parade they think they have been very snapony treated.

If they cannot make the Committee listen to their protests they are coming over here to build a grand stand of their own on Broadway. They say that the New York Aldermen will see that they get their rights to this extent at least, although they feel themselves entitled to ball and banquet tickets as well.

Col. R. Van Rensealer Cruger said this morning that there was no probability that the line of march would be changed, and that all the Army Committee could do was to respectfully decline to grant the request of the Legislature expressed in the concurrent resolution passed yesterday.

The Centennial Celebration Committee have been busily engaged to-day in removing the portraits of historic celebrities in the Governor's Room at the City Hall to the Metropolitan Opera-House, where they will become part of the exhibition of Centennial curiosities. A BRILLIANT GAME PROMISED FOR BROOK-LYN'S WASHINGTON PARK.

To-day's game between Brooklyn and New York promises to be as fiercely fought as were the two previous ones.

The fact that the winning club pockets all the gate receipts compels both Managers Mutrie and McGunnigle to do some tall hustling in order that the strongest possible teams may be put into the field.

Mr. Mutrie went to Boston last night and tried to get Ed Crane to return with him and pitch the game, but Healy was not with the combination and Jim had to return home without the pitcher.

That the Bridegrooms will do their best to win no one doubts, and the sports of Brooklyn are eagerly accepting bets at evens.

A big crowd is looked for at the park to learn an answer to the question, "Can't Brooklyn win one game?"

Brown, who was elected President in his place, has resigned. The Board of Managers accepted the resigna-tion with due ceremony and form, and then John P. Haines was unanimously elected Presi-dent.

John P. Haines was unanimously elected President.

There were present Elbridge T. Gerry, the leader of the opposition to the Bergh dynasty; Dr. Morgan J. Dix, ex-Judge Russell, F. R. Condert, ex-Judge Wagstaff, George G. Havens, K. C. Beckwith, Gen. James Grant Wilson, W. C. Schermerhorn, Benjamin D. Hicks, Morris K. Jesup and George C. De Witt, Jr.

Mr. Haines was a member of the old dry-goods house of Haistead, Haines & Co. until 1880, and is about forty years old.

He resides on a model farm at Toms River, N. J., where he has a fine herd of imported Jersey cattle and a fine kennel of dogs. For years Mr. Haines has taken the prizes at the annual bench shows of the Westminster Kennel Club for smooth-coated St. Bernards, and he is very fond of domestic animals generally.

Mr. Haines boasts an American ancestry in New England since 1640, and earlier than that there were a number of English baronets on his family tree. Last Fall he was one of the Presidential electors on the New Jersey Republican ticket.

During his voyaging he called at Samos, where he had a long conversation with THE WORLD's representative, Mr. Klein.

Finally, coming to Honolulu, Mr. Stevenson took a cottage and found his life so happy and free that he has himself described his surroundings as those of "a heaven upon earth."

Meredith Stanley, a bridge-jumper and ath'ete of some little note, jumped last Thursday from the iron bridge *panning the Kentucky River 100 miles south of Cincinnati, *ays a despatch

This is the highest bridge but one in the world and is 285 feet above the surface of the water. The water where the jumper struck was only

was hired next morning and the waters examined. The despest spot was 12 feet and between two large rocks.

At noon Meredith stripped for the jump. He put on a pair of blue silk trunks, leaving him bare above the waist. A pair of slippers protected his feet.

At 12.30 he shouted "good-by" and leaped high in the sir.

As his form shot through space he was seen to double his body up like a ball and struck the water with a mighty splash.

He came to the surface apparently unharmed, and was yanked into a boat by his friends. He did not breathe for half a minute and bled a little at the mouth.

There was not an abrasion of the skin as the result of his leap, and he said he felt all right. He returned to Cincinnati and was at work yesterday.

He now claims the championship because he says that he tried to get a match on with Steve Brodie while in New York some months ago and the latter refused.

An Evaniso World reporter called on Brodie at his saloon to-day.

"In the first place," said Brodie, "I want it distinctly understood that I have never been challenged by any mortal man. I have never seen or heard of Meredith Stanley and there is no record of his being a bridge jumper."

"Do you believe he jumped?"

"I do not. It is an impossibility for a man to imp 285 feet into water only 12 feet deep. The report says that going down he doubled himself up like a bail. That is another impossible feat, for a man going through the air has no control over himself whatever.

"It is said that his skin was not even broken. How about that?"

Brodie laughed. "That is absurd, and it makes me doubt the jump. Why, when I jumped from the Brooklyn Bridge, only 148 feet. His skin was iplit and torn to pieces. But if Mr. Stanley wants mybelt he can have it when he proves that he can beat me, and I should like to insert my challenge in him Evansino Wontle."

But the man who proposes and who knows how President Harrison will dispose has sent the mercury of hope in Col. Jacobus's heart almost to the zero point.

Ex-Senator Thomas C. Platt returned from Washington yesterday, and aunounced that he did not think that either of the gentleman at present named for Appraiser will be Appraiser.

This aunouncement is considered as finally disposing of Mesers. Jacobus and Jones as possible servants of the Government in the positions they so covet.

To the Editor of the Evening World:

During the days of the celebration from April 30 to May 2, drays should be allowed to stand on the side streets near the avenues and Broad-way, as in former years, so that persons can se-cure seats for about 50 cents. Old people or persons who can't stand long may thus get a seat to see the parade.

The suspense did not last long, however, and it was a sad crowd that wended its way back to the city.

The offices of Funch, Edye & Co., agents of the Thingwalla line in this city, were visited this morning by scores of people in search of missing friends and relatives.

Mr. Edye received several telegrams from Western cities making inquiries concerning the safety of the vessel. B.D. Barkelow, of Omaha, Neb., sent a despatch, asking whether Benedikta Persons had sailed from Maleno, Sweden, and whether she had been saved.

A glance at the list showed that she had sailed. A great many people who called at the passenger office on State street this morning shook their heads sailly when told there was no news and then walked away.

One woman who was early at the office and for hours paced up and down on the sidewalk was Mrs. Cein Neilson, of the Oakland House, Fort Hamilton. She had received a letter, and later on a telegram, from Carl Lund, in Cache County, Utah.

His wife, Marie Louise, who is a cousin of Mrs. Neilson, and her two children are among those who sailed from Copenhagen.

Mr. Funch, of Funch, Edye & Co., the agents in the city, is still firm in his belief that the passengers have been picked up by a passing vessel, and expects to bear of their safe arrival at some port any minute.

As soon as the news of the sighting of the Aller reached this city there was a general stam-

pede of the anxious ones to that vessel's dock in Hoboken.

The most sanguine hopes were indulged in and in a short time it seemed to be a universally accepted fact that the Aller must have picked up the Danmark's survivors.

She came over about the same ocean course as the Danmark and the City of Chester, argued the nautically wise, and she could not have missed the boats from the abandoned vessel.

As the Aller came up the North River the anxiety became intense.

Glasses were brought to the end of the pier by many excited people who had not heard the news already in possession of the officers at Quarantine, and vain efforts were made to catch a glimpse of some survivor's lace on the crowded decks of the Aller.

The suspense did not last long, however, and it was a sad crowd that wended its way back to the city.

The mails from the White Star steamer Britannic were distributed this morning and contained a letter for Funch, Edye & Co. containing a list of the passengers who were on board the Danmark.

Steamers of the White Star line sail between Norwagian Sweitish and English ports regularly every week, and it was by that means of transportation the letter was sent from Christians and Christiansand to London.

Thence it was sent overland to Liverpool in time to catch the steamer Britannic, which left that port on April 3.

The lists contain the names of all the passengers on the Danmark except those who came from Norway. They are here given, those whose destination was New York being given first. Almort all of the others were for Western points. THE PASSENGER LISTS.

Port Townsend, W. T., follows investigations

which have disclosed a wide range of fraudulent operations, including extortions from incoming and outgoing vessels, the removal and destruc-tion of public records and the falsifying of ac-

Warrants were issued for the arrest of Beecher and Harndon to-day. Brooks is in Washington. Charges of crookedness had been made by the press and taken up by the public, and official in-vestigation by agents from Washington resulted.

The Swedish Tenor's Success

Hardman Hall was filled last night with a very

large audience notwithstanding the inclemency

of the weather. The occasion was the first ap-pearance of a young Swedish tenor, Eugene de

pearance of a young Swedish tenor, Eugene de Danckwardt, of the Royal Opera, Stockholm. Mr. Danckwardt was greeted with hearty applause in his selections. His voice is of great firmness of tone in the upper register, and although he had the good taste to avoid any sensational exhibition of high notes, he took those which came in the score with masterly ease. His method is good and the 'imbre of his voice excellent. Mr. Danckwardt has much to congratulate himself with on last evening success. He was assisted by Miss Ohrstrom, Miss Goodrich, Mrs. Toplita and Mr. and Mr. Carl Mertin.
